Portfolio performance

Rented area in the Group investment properties - breakdown by space type, m2

Weighted average rent in Group investment properties by space type, EUR/m2

- During the reporting period the Group expanded its investment property portfolio with the acquisition of two investment properties – an office building on Elizabetes iela 23 and office spaces on Elizabetes iela 21A-102 with a total area of 4,324.9 square meters and 689.4 square meters respectively. Office spaces on Elizabetes iela 21A-102 are fully leased, whereas the majority of Elizabetes iela 23 office building tenants are in rotation. There is also a planned decrease in the tenant number in the office building on Brīvības gatve 214M as the management prepares the building for reconstruction. As a result of the aforementioned activities the Group closed the 2nd quarter 2019 with a slight decrease in the total rented area of the Group offices. The Group management continues its work on the tenant mix optimization in the remaining VEF territory offices.
- Decrease in the rented area of the Group warehouses recorded at the end of the 2nd quarter 2019 resulted from tenant rotation in one of the Group warehouses – “Piepilsētas” where vacancy reached 40% at the end of the reporting period. The Company subsidiary NHC 3, SIA has signed a long term lease agreement for the vacant space and is adjusting the spaces according to the new tenant requirements. With the new tenant occupancy in “Piepilsētas” should reach 99% by the end of 3rd quarter 2019.
- During the reporting period there was a 20% increase in the average rents charged in Group offices as a result of Elizabetes iela 21A-102 office space acquisition where average rents are significantly higher than in other Group offices.
